

Physician Collaborative Transforming Clinical Care: Reducing Unwarranted Variation in Care

Participation Enrollment Form

Due by: 9/15/2023

Overview:

Vizient Southern States is partnering with QURE to help its members overcome the challenges related to reducing unwarranted clinical variation. Participants will learn how QURE’s scientifically validated patient simulations measure clinical decisions and provide personalized feedback compared to the latest evidence-based practices.

Participants in this Collaborative Will:

- Collect and measure clinical decision making on priority clinical conditions (e.g., Heart Failure, Sepsis, COPD)
- Benchmark care decisions with national guidelines and Vizient Southern States’ colleagues
- Improve clinical outcomes and quality, as well as reduce costs
- Integrate coding recommendations to improve accuracy

Maximum Cost Per Person: \$1,199 (I am committed to participate at this price point).

Hospital/Health System Group Enrollment – Total number you will be enrolling: _____

Payment of Fees: Once enough people register for this program to move forward, you will receive a separate email with an invoice.

Participation Information:

Organization Name	
Key Contact Name	
Key Contact Title
