

# Physician Collaborative

## Transforming Clinical Care:

### Reducing Unwarranted Variation in Care

[Register Now](#)

#### Demo/Deep Dive Webinar

Join us on a demo/deep dive webinar to learn how patient simulations work.

**Date:** August 8, 2023

**Time:** 2:00 - 3:00 p.m. CT | 3:00 - 4:00 p.m. ET

#### Who Should Attend:

- Clinical Leaders (CMOs, COOs, VPMAs)
- Physician Leaders (Chief of Staff, Medical Directors)
- Department Chairs

Vizient Southern States is partnering with QURE to help its members overcome the challenges related to reducing unwarranted clinical variation. Join us on August 8 to hear how QURE's scientifically validated patient simulations measure clinical decisions and provide personalized feedback compared to the latest evidence-based practices. During this webinar, you will learn how QURE's approach can increase quality and reduce costs for your organization.

### Collaborative Benefits

- Collect and measure clinical decision making on priority clinical conditions (e.g., Heart Failure, Sepsis, COPD)
- Benchmark care decisions with national guidelines and Vizient Southern States' colleagues
- Improve clinical outcomes and quality, as well as reduce costs
- Integrate coding recommendations to improve accuracy

### Collaborative Activities

- Short, engaging virtual patient simulations
- Real time personalized feedback on care decisions
- Virtual group meetings to review clinical insights and opportunities
- Engage with collaborative participants in clinically-focused discussions about the results from the simulations
